PROFESSIONAL EXPERIENCE

Senior Operations Associate **Aug 2024 - Date**

Rvysion | Florida, USA (Remote)

- Own day-to-day operational workflows across a multidisciplinary team of approximately 20 people spanning design and engineering, coordinating priorities, timelines, dependencies, communication, and deliverables.
- Maintain a central operational view of active workstreams, tracking project progress, ownership, outstanding actions, risks, blockers, and execution status for leadership.
- Coordinate multiple concurrent client engagements, keeping track of deliverables, revisions, dependencies, handoffs, and stakeholder follow-ups across different time zones.
- Monitor projects for delivery risks, unclear ownership, delayed inputs, and coordination gaps, escalating issues early and driving follow-up actions to resolution.
- Work across design, engineering, operations, and leadership to clarify responsibilities, resolve dependencies, and keep committed work moving.
- Coordinate internal and external stakeholders across projects and strategic initiatives, maintaining clear communication and follow-through across competing priorities.
- Track project revenue and delivery-related costs across tools, vendors, and service delivery partners, providing visibility into project performance and resource use.
- Design and improve workflows, SOPs, trackers, dashboards, and reporting structures to create clearer ownership, visibility, and consistency across workstreams.
- Lead process improvement initiatives by identifying unnecessary manual work and redesigning workflows around operational requirements.
- Designed and implemented no-code workflow automations using Zapier and Make, reducing manual workload by approximately 35% across recurring operational processes.
- Provide structured operational updates, issue tracking, follow-up actions, and reporting to support management and delivery decisions.
